WEBSITE PROJECT PROPOSAL

1. Organisation Overview:

❖ Organisation Name :

PrimeOps

❖ Brief history of the organisation.

PrimeOps is a logistics, procurement, and supply chain solutions company established in 2026 in Lubumbashi, to simplify trade between South Africa and the Democratic Republic of Congo. The company was founded with a goal of providing reliable sourcing, procurement, transportation, and logistics management services.

❖ Mission and vision statements.

Mission statements

To deliver innovative, reliable, and efficient logistics and procurement solutions that optimize the operations of our client and support the growth of trade across Africa.

Vision statement

To become one of Africa's leading logistics and operations management companies, recognized for excellence, innovation, and customer services.

❖ Target audience.

- Mining companies
- Manufacturing industries
- Construction companies
- Small and medium enterprises (SMEs)
- Large corporations
- Government and private organisation
- Businesses seeking procurement, transportation, and supply chain solutions.

2. Website Goals and Objectives :

❖ Goals

The proposed website aims to:

- Increase the company's online visibility.
- Showcase the company's services.
- Generate business enquiries and leads.
- Build trust and credibility.
- Provide company information to potential investors and clients.
- Allow customers to contact the company easily.

❖ Key performance Indicators

KPI	Target
Monthly website visitors	2,000+
Contact form submissions	50+ per month
Customer enquiries	Increase by 40%
Average session duration	Over 2 minutes
Bounce rate	Below 50%
Mobile responsiveness	100%

3. Current Website Analysis (if applicable):

- Currently, PRIMEOPS CONGO SARL does not have an official website.

— Strengths

- Registered and legally recognized company.
- Wide range of professional services.
- Diverse business portfolios.
- Professional management structure.

- **Weaknesses**

- No online presence.
- Customers cannot easily find company information.
- No digital marketing platform.
- Limited customer engagement.

4. Proposed Website Features and Functionality:

- Outline essential features
- Homepage
 - Company introduction
 - Banner images
